<TEXT>I do not want to pay more for my telephone service! I urge
you to reject a flat fee proposal that would change how
contributions are made to the Universal Service Fund.

Under the flat fee proposal you are considering, people who make
few long distance calls would pay the same as people or
businesses that make many calls. Low-volume customers, such as
myself, would bear the same universal service fund charge as
high-volume residential or business customers. This is simply
not fair!

I use my wireless phone for safety, security and convenience. I
don't want to lose these benefits so that big businesses can pay
less than their fair share. I urge you to reject the proposal to
move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Richard Villastrigo
